Languages: C/C++, Python, C#, JavaScript, HTML / CSS, Java, PHP, SQL, Scala

Frameworks & Tools: Unix/Linux, Node.js, React/Redux, Laravel, LAMP Stack, Unity, Git

University of Waterloo

Bachelor of Computer Science Sep 2016 - May 2021

Data Structures & Algorithms
Object-Oriented Programming
Digital Computation

awards

Most Outstanding Army Cadet Engineering Entrance Award President's Scholarship (95%+)

interests

Swimming lengths Internet of Things Cryptography Puzzles & Brainteasers

experience

Software Engineer

Jan '18 - Apr '18

Novus Healthcare International

- Designed a dashboard for health assessments using React, reducing turnaround for publishing campaigns from hours to minutes
- Created several new APIs and refactored deprecated APIs for customer products and internal tools
- Implemented and automated data import tools in PHP and SQL, decreasing the time to update records by 30%
- Developed a text-parsing engine for reading and writing files in Laravel

Software Development Intern

May '17 - Aug '17

Genesys Laboratories

- Engineered a media control suite for server-side recording and browser playback in C++
- Extended support for next-generation audio codec, boosting call quality by up to 50%
- Implemented unit tests for media encapsulation with Google Test on Linux and Windows

projects

Student Management System

git.io/vp49K

- Implemented a secure database to manage 1,000+ student records using LAMP Stack
- Designed robust input sanitation using error-handlers and regular expressions in PHP

Re-Vim'd

- Programmed a lightweight clone of the classic Vim editor in C++
- Replicated navigation, file open/save, editing, macros, syntaxhighlighting and other core features

3D Dogfighter

git.io/vp49M

- · Developed a multiplayer aerial combat game in C# with Unity
- Integrated networking with match-making system for hosting 20+ concurrent users

Fraud Detector

git.io/vp49H

- Implemented an SVM in Python to identify fraudulent employees
- Tuned classification algorithm to achieve 85% accuracy on 14,000+ employee profiles
